

**BEFORE THE CITY COUNCIL  
CITY OF CAPE CORAL, FLORIDA**

**PETITION TO ESTABLISH 7 ISLANDS  
COMMUNITY DEVELOPMENT DISTRICT**

Petitioner, Gulf Gateway Resort & Marina, LLC (hereafter “Petitioner”), hereby petitions the City Council of the City of Cape Coral pursuant to the “Uniform Community Development District Act of 1980,” Chapter 190, *Florida Statutes*, to establish a Community Development District with respect to the land described herein. In support of this petition, Petitioner states:

1.     Location and Size. The proposed District is located entirely within the City of Cape Coral, Florida. **Exhibit 1** depicts the general location of the proposed District. The proposed District covers approximately 47.18 acres of land, generally located adjacent to the North Spreader Waterway, south of Tropicana Parkway W., west of Burnt Store Road, north of SW Pine Island Road, and east of the Matlacha Pass Aquatic Preserve. The metes and bounds description of the external boundaries of the proposed District is set forth in **Exhibit 2**.

2.     Excluded Parcels. There is no land within the external boundaries of the proposed District, which is to be excluded from the District.

3.     Landowner Consent. Petitioner has obtained written consent to establish the proposed District from the owners of one hundred percent (100%) of the real property located within the proposed District in accordance with Section 190.005, *Florida Statutes*. Documentation of ownership and consent to the establishment of a community development district is contained in **Exhibit 3**.

4.     Initial Board Members. The five persons designated to serve as initial members of the Board of Supervisors of the proposed District are as follows:

Name:           Matthew Sinclair  
Address:        329 NE 3<sup>rd</sup> Avenue

Cape Coral, Florida 33909

Name: Jason Pawloski  
Address: 329 NE 3<sup>rd</sup> Avenue  
Cape Coral, Florida 33909

Name: Justin Morrow  
Address: 329 NE 3<sup>rd</sup> Avenue  
Cape Coral, Florida 33909

Name: Sam Timms  
Address: 220 Lake Shore Drive, Suite #333  
Lake Park, Florida 33403

Name: Julia Anderson  
Address: 220 Lake Shore Drive, Suite #333  
Lake Park, Florida 33403

All of the above-listed persons are residents of the State of Florida and citizens of the United States of America.

5. Name. The proposed name of the District is 7 Islands Community Development District.

6. Future Land Uses. The future general distribution, location, and extent of the land uses proposed for the District by future land use plan element of the applicable Future Land Use Plan is identified on **Exhibit 4**. The proposed land uses for lands contained within the proposed District are consistent with the City's approved Future Land Use Plan.

7. Major Water and Wastewater Facilities and Outfalls. **Exhibit 5** shows the existing and proposed major trunk water mains, sewer connections, and reclaimed water mains serving the lands within and around the proposed District.

8. District Facilities and Services. **Exhibit 6** describes the type of facilities Petitioner presently expects the proposed District to finance, fund, construct, acquire and/or install, as well as the anticipated entity responsible for ownership and maintenance. The

estimated costs of constructing the infrastructure serving land within the proposed District are identified in **Exhibit 7**. At present, these improvements are estimated to be made, constructed and installed over the time period from 2026 through 2034. Actual construction timetables and expenditures will likely vary, due in part to the effects of future changes in the economic conditions upon costs such as labor, services, materials, interest rates and market conditions.

9. Statement of Estimated Regulatory Costs. **Exhibit 8** is the statement of estimated regulatory costs (“SERC”) prepared in accordance with the requirements of Section 120.541, *Florida Statutes*. The SERC is based upon presently available data. The data and methodology used in preparing the SERC accompany it.

10. Authorized Agent. The Petitioner is authorized to do business in the State of Florida. The authorized agent for the Petitioner is Jonathan T. Johnson. **See Exhibit 9**. Copies of all correspondence and official notices should also be sent to:

Jonathan T. Johnson

Tallahassee, Florida 32301

11. This petition to establish 7 Islands Community Development District should be granted for the following reasons:

a. Establishment of the District and all land uses and services planned within the proposed District are not inconsistent with applicable elements or portions of the effective State Comprehensive Plan or the local Comprehensive Plan.

b. The area of land within the proposed District is part of a planned community. It is of a sufficient size and is sufficiently compact and contiguous to be developed as one functional and interrelated community.

c. The establishment of the District will prevent the general body of taxpayers in the City of Cape Coral from bearing the burden for installation of the infrastructure and the maintenance of the above-described facilities within the development encompassed by the District. The District is the best alternative for delivering community development services and facilities to the proposed community without imposing an additional burden on the general population of the local general-purpose government. Establishment of the District in conjunction with a comprehensively planned community, as proposed, allows for a more efficient use of resources.

d. The community development services and facilities of the District will not be incompatible with the capacity and use of existing local and regional community development services and facilities. In addition, the establishment of the District will provide a perpetual entity capable of making reasonable provisions for the operation and maintenance of the District services and facilities.

e. The area to be served by the proposed District is amenable to separate special-district government.

WHEREFORE, Petitioner respectfully requests the City Council of the City of Cape Coral to:

- a. schedule a public hearing in accordance with the requirements of Section 190.005(2)(b), *Florida Statutes*;
- b. grant the petition and adopt an ordinance establishing the District pursuant to Chapter 190, *Florida Statutes*;
- c. consent to the District's exercise of certain additional powers to finance, fund, plan, establish, acquire, construct, reconstruct, enlarge or extend, equip, operate, and

maintain systems and facilities for parks and facilities for indoor and outdoor recreational, cultural, and educational uses; security, including but not limited to, guardhouses, fences and gates, electronic intrusion-detection systems, and patrol cars; control and elimination of mosquitoes and other arthropods of public health importance; and waste collection and control, each as authorized and described by Sections 190.012(2)(a)(d)(e) and (f), *Florida Statutes*, and

c. grant such other relief as appropriate.

JOB # 25-0111 PREPARED FOR: FOREST DEVELOPMENT

SECTION 12 & 13, TOWNSHIP 44S, RANGE 22E

# Description

## 7 ISLANDS

(Continued from page 3)

Parcel 2 lying NORTH of Cape Coral Spreader Waterway (150' wide)

Commencing at the Northeast corner of the NE 1/4 Section 13, Township 44 South, Range 22 East, Lee County, Florida; thence run along the north line of the NE 1/4 Section 13, N 89°25'09"W for a distance of 50.00 feet to an intersection with the west line of Old Burnt Store Road (100' wide); thence run along said west right-of-way line of Old Burnt Store Road (100' wide) N 00°34'51"E for 2434.90' to any intersection with the the north line of Cape Coral Spreader Waterway (150' wide), Cape Coral Unit 76 and the Point of Beginning.

From said Point of Beginning run along the north line of Cape Coral Spreader Waterway (150' wide) N89°25'09"W for 110.00' to an intersection with the east line of Curacao Canal (80' wide); thence run along said east line N00°34'51"E for 274.00' to the point of tangency of a 25' radius curve concave to the southwest, said curve having a delta angle of 90°00'00", a chord bearing and chord of N44°23'09"W for 35.36', run along the arc of said curve for 39.27' to an intersection with the north line of Curacao Canal (80' wide), run along said north line N89°25'09"W for 30.00' to an intersection with a 25' radius curve concave to the southeast, said curve have a delta angle of 90°00'00", a chord bearing and cord of S45°34'51"W for 35.36', run along the arc of said curve for 39.27' to an intersection with the west line of Curacao Canal (80' wide); thence run along said west line S00°34'51"W for 249.00' to the point of tangency of a 25' radius curve to the northwest, said curve having a delta angle of 90°00'00", a chord bearing and chord of S45°34'51"W for 35.36', run along the arc of said curve for 39.27' to an intersection with the north line of Cape Coral Spread Waterway (150' wide); thence run along said north line N89°25'09"W for 220.00' to an intersection with the east line of Cape coral Spreader Waterway (200' wide); thence run along said east line N00°34'51"E for 784.36' to the point of tangency of a 25' radius curve concave to the southeast, said curve having a delta angle of 90°00'00", a chord bearing and chord of N45°34'51"E for 35.36', run along the arc of said curve for 39.27' to an intersection with the south line of Culebra Canal (80' wide); thence run along said south line S89°25'09"W for 195.00' to the point of tangency of a 25' radius curve concave to southwest, said curve having a delta angle of 90°00'00", a chord bearing and chord of S44°25'09"E for 35.36', run along the arc of said curve for 39.27' to an intersection with the west line of Virgin Island Canal (80' wide); thence run along said west line, S00°34'51"W for 400.36' to the point of tangency of a 25' radius curve concave to the northeast, said curve having a delta angle 90°00'00", a chord bearing and chord of S44°25'09"E for 35.36', run along the arc of said curve for 39.27' to an intersection with the south line of Virgin Island Canal (80' wide); thence run along said south line S89°25'09"E for 30.00' to the point of tangency of a 25' radius curve concave to the northwest, said curve having a delta angle of 90°00'00", a chord bearing and chord of N45°34'51"E for 35.36', run along the arc of said curve for 39.27' to an intersection with the east line of Virgin Island canal (80' wide); thence run along said east line N00°34'51"E for 871.97' to the point of tangency of a 25' radius curve concave to the southwest, said curve having a delta angle of 90°00'00", a chord bearing and chord of N44°25'09"W for 35.36', run along the arc of said curve for 39.27' to and intersection with the north line of Virgin Island Canal (80' wide); .....

# **EXHIBIT 3**

**CONSENT AND JOINDER TO ESTABLISHMENT  
OF A COMMUNITY DEVELOPMENT DISTRICT**

The undersigned is the owner of certain lands more fully described in **Exhibit A** attached hereto and made a part hereof ("Property").

The undersigned understands and acknowledges that Petitioner intends to submit a petition to establish a community development district in accordance with the provisions of Chapter 190 of the Florida Statutes.

As the owner of lands which are intended to constitute all or a portion of the community development district, the undersigned understands and acknowledges that pursuant to the provisions of Section 190.005, *Florida Statutes*, the Petitioner is required to include the written consent to the establishment of the community development district of one hundred percent (100%) of the owners of the lands to be included within the community development district.

The undersigned hereby consents to the establishment of the community development district which will include the Property within the lands to be a part of the community development district and agrees to further execute any documentation necessary or convenient to evidence this consent and joinder during the application process for the establishment of the community development district.

The undersigned acknowledges that the consent will remain in full force and effect until the community development district is established or a written revocation is issued, which ever shall first occur. The undersigned further agrees that it will provide to the next purchaser or successor in interest of all or any portion of the Property a copy of this consent form and obtain, if requested by Petitioner, a consent to establishment of the community development district in substantially this form.

The undersigned hereby represents and warrants that it has taken all actions and obtained all consents necessary to duly authorize the execution of this consent and joinder by the person executing this instrument.

JOB # 25-0111 PREPARED FOR: FOREST DEVELOPMENT

SECTION 12 & 13, TOWNSHIP 44S, RANGE 22E

# Description

## 7 ISLANDS

(Continued from page 3)

Parcel 2 lying NORTH of Cape Coral Spreader Waterway (150' wide)

Commencing at the Northeast corner of the NE 1/4 Section 13, Township 44 South, Range 22 East, Lee County, Florida; thence run along the north line of the NE 1/4 Section 13, N 89°25'09"W for a distance of 50.00 feet to an intersection with the west line of Old Burnt Store Road (100' wide); thence run along said west right-of-way line of Old Burnt Store Road (100' wide) N 00°34'51"E for 2434.90' to any intersection with the the north line of Cape Coral Spreader Waterway (150' wide), Cape Coral Unit 76 and the Point of Beginning.

From said Point of Beginning run along the north line of Cape Coral Spreader Waterway (150' wide) N89°25'09"W for 110.00' to an intersection with the east line of Curacao Canal (80' wide); thence run along said east line N00°34'51"E for 274.00' to the point of tangency of a 25' radius curve concave to the southwest, said curve having a delta angle of 90°00'00", a chord bearing and chord of N44°23'09"W for 35.36', run along the arc of said curve for 39.27' to an intersection with the north line of Curacao Canal (80' wide), run along said north line N89°25'09"W for 30.00' to an intersection with a 25' radius curve concave to the southeast, said curve have a delta angle of 90°00'00", a chord bearing and cord of S45°34'51"W for 35.36', run along the arc of said curve for 39.27' to an intersection with the west line of Curacao Canal (80' wide); thence run along said west line S00°34'51"W for 249.00' to the point of tangency of a 25' radius curve to the northwest, said curve having a delta angle of 90°00'00", a chord bearing and chord of S45°34'51"W for 35.36', run along the arc of said curve for 39.27' to an intersection with the north line of Cape Coral Spread Waterway (150' wide); thence run along said north line N89°25'09"W for 220.00' to an intersection with the east line of Cape coral Spreader Waterway (200' wide); thence run along said east line N00°34'51"E for 784.36' to the point of tangency of a 25' radius curve concave to the southeast, said curve having a delta angle of 90°00'00", a chord bearing and chord of N45°34'51"E for 35.36', run along the arc of said curve for 39.27' to an intersection with the south line of Culebra Canal (80' wide); thence run along said south line S89°25'09"W for 195.00' to the point of tangency of a 25' radius curve concave to southwest, said curve having a delta angle of 90°00'00", a chord bearing and chord of S44°25'09"E for 35.36', run along the arc of said curve for 39.27' to an intersection with the west line of Virgin Island Canal (80' wide); thence run along said west line, S00°34'51"W for 400.36' to the point of tangency of a 25' radius curve concave to the northeast, said curve having a delta angle 90°00'00", a chord bearing and chord of S44°25'09"E for 35.36', run along the arc of said curve for 39.27' to an intersection with the south line of Virgin Island Canal (80' wide); thence run along said south line S89°25'09"E for 30.00' to the point of tangency of a 25' radius curve concave to the northwest, said curve having a delta angle of 90°00'00", a chord bearing and chord of N45°34'51"E for 35.36', run along the arc of said curve for 39.27' to an intersection with the east line of Virgin Island canal (80' wide); thence run along said east line N00°34'51"E for 871.97' to the point of tangency of a 25' radius curve concave to the southwest, said curve having a delta angle of 90°00'00", a chord bearing and chord of N44°25'09"W for 35.36', run along the arc of said curve for 39.27' to and intersection with the north line of Virgin Island Canal (80' wide); .....

**7 ISLANDS  
COMMUNITY DEVELOPMENT DISTRICT**

**Statement of Estimated Regulatory Costs**

April 28, 2026

Prepared by

Special District Services, Inc.  
2501A Burns Road  
Palm Beach Gardens, Florida 33410

(561) 630-4922

# **STATEMENT OF ESTIMATED REGULATORY COSTS**

## **1.0 Introduction**

### **1.1 Purpose and Scope**

This Statement of Estimated Regulatory Costs (“SERC”) supports the petition to establish the 7 Islands Community Development District (“District”). The proposed District will be comprised of approximately 47.18 +/- acres of land located in the City of Cape Coral, Florida, which will make up the 7 Islands development (collectively referred to herein as the “Project”). The limitations on the scope of this SERC are explicitly set out in Section 190.002(2) (d), F.S. (governing District establishment) as follows:

“That the process of establishing such a district pursuant to uniform general law shall be fair and based only on factors material to managing and financing the service delivery function of the district, so that any matter concerning permitting or planning of the development is not material or relevant (emphasis added).”

### **1.2 Overview of 7 Islands Community Development District**

The District is designed to provide public district infrastructure, services, and facilities along with their operations and maintenance to a development as approved by the City of Cape Coral, within the boundaries of the District.

### **1.3 Requirements for Statement of Estimated Regulatory Costs**

Section 120.541(2), F.S., defines the elements a statement of estimated regulatory costs must contain:

(a) An economic analysis showing whether the rule directly or indirectly: (1) is likely to have an adverse impact on economic growth, private sector job creation or employment, or private sector investment in excess of \$1 million in the aggregate within 5 years after the implementation of the rule; (2) is likely to have an adverse impact on business competitiveness, including the ability of persons doing business in the state to compete with persons doing business in other states or domestic markets, productivity, or innovation in excess of \$1 million in the aggregate within 5 years after implementation of the rule; or (3) is likely to increase regulatory costs, including any transactional costs, in excess of \$1 million in the aggregate within 5 years after the implementation of the rule.

(b) A good faith estimate of the number of individuals and entities likely to be required to comply with the rule, together with a general description of the types of individuals likely to be affected by the rule.

(c) A good faith estimate of the cost to the agency, and to any other state and local government entities, of implementing and enforcing the proposed rule, and any anticipated effect on state and local revenues.

(d) A good faith estimate of the transactional costs likely to be incurred by individuals and entities, including local governmental entities, required to comply with the requirements of the rule. As used in this section, “transactional costs” are direct costs that are readily ascertainable by the agency based upon standard business practices, as defined in Section 120.541(2), F.S.

(e) An analysis of the impact on small businesses as defined by Section 288.703, F.S., and an analysis of the impact on small counties and small cities as defined by Section 120.52, F.S.

(f) In evaluating the impacts described in paragraphs (a) and (e), an agency must include, if applicable, the market impacts likely to result from compliance with the proposed rule, including:

1. Changes to customer charges for goods or services.
2. Changes to the market value of goods or services produced, provided, or sold.
3. Changes to costs resulting from the purchase of substitute or alternative goods or services.
4. The reasonable value of time to be spent by owners, officers, operators, and managers to understand and comply with the proposed rule, including, but not limited to, time to be spent completing requiring education, training, or testing.

(g) Any additional information that the agency determines may be useful.

“Note: the references to “rule” in the statutory requirements for the Statement of Estimated Regulatory Costs also apply to an “ordinance” under section 190.005(2) (a), Florida Statutes.”

**2.0 An economic analysis of potential impacts on growth, business competitiveness or increased regulatory costs, in excess of \$1 million within the next 5 years.**

It is unlikely the establishment of the District will meet any of the adverse triggers referenced in Section 120.541(2)(a). The basis for this determination is that this Petition to establish the District is for the sole purpose of providing public infrastructure for the development of the development project, which was vetted by the City during the review process. Additional support of this determination is provided in the discussions in Section 3.0 through Section 6.0 herein.

**3.0 A good faith estimate of the number of individuals and entities likely to be required to comply with the ordinance, together with a general description of the types of individuals likely to be affected by the ordinance.**

The 7 Islands Community Development District serves land that comprises an approximately 47.18 +/- acre mixed use development to be made up of an estimated 992 residential dwelling units, a 240-room Hotel, Event Space, Retail, Community Center, and Marina.. The estimated population of the District is 2,480 (2.5 per household), within the District. The property owners in the District will be individuals that may operate industrial, manufacturing and other retail and non-retail related businesses outside the boundaries of the District.

**4.0 A good faith estimate of the cost to the agency, and to any other state and local government entities, of implementing and enforcing the proposed rule, and any anticipated effect on state or local revenues.**

## **4.1 Costs to Governmental Agencies of Implementing and Enforcing Ordinance**

### State Governmental Entities

There will be only modest costs to various State governmental entities to implement and enforce the proposed establishment of the District. The District as established on the proposed land, will encompass under 2,500 acres, therefore, the City of Cape Coral is the establishing entity under 190.005(2), F.S. The modest costs to various State entities to implement and enforce the proposed ordinance relate strictly to the receipt and processing of various reports that the District is required to file with the State and its various entities. Appendix A lists the reporting requirements. The costs to those State agencies that will receive and process the District's reports are very small, because the District is only one of many governmental units that are required to submit the various reports. Therefore, the marginal cost of processing one additional set of reports is inconsequential. Additionally, the District must pay an annual fee to the State of Florida Department of Economic Development, which offsets such costs.

### City of Cape Coral

There will be only modest costs to the City for a number of reasons. First, review of the petition to establish the District does not include analysis of the project itself. Second, the petition itself provides much of the information needed for a staff review. Third, the City already possesses the staff needed to conduct the review without the need for new staff. Fourth, there is no capital required to review the petition. Finally, the City routinely processes similar petitions though for entirely different subjects, for land uses and zoning changes that are far more complex than is the petition to establish a community development district.

The annual costs to the City of Cape Coral, because of the establishment of the District, are also very small. The District is an independent unit of local government. The only annual costs the City faces are the minimal costs of receiving and reviewing the various reports that the District is required to provide to the City, or any monitoring expenses the City may incur if it establishes a monitoring program for this District. However, consistent with section 190.005(1)(b)1, F.S., the Petitioner has included a one-time payment of \$15,000 to offset any expenses the City may incur in the processing of this Petition, or in the monitoring of this District.

## **4.2 Impact on State and Local Revenues**

Adoption of the proposed ordinance will have no negative impact on state or local revenues. The District is an independent unit of local government. It is designed to provide infrastructure facilities and services to serve the development project and it has its own sources of revenue. No state or local subsidies are required or expected.

In this regard it is important to note that any debt obligations incurred by the District to construct its infrastructure, or for any other reason, are not debts of the State of Florida or any other units of local government. In accordance with State law, debts of the District are strictly its own responsibility.

## **5.0 A good faith estimate of the transactional costs likely to be incurred by individuals and entities required to comply with the requirements of the ordinance.**

The Petitioner has estimated the costs for providing the capital facilities to be approximately \$71,504,778.04. The District may issue special assessment bonds to fund all or a portion of the costs of these facilities. These bonds would be repaid through the levy of non-ad valorem special assessments. Prospective future landowners in the District may be required to pay non-ad valorem assessments levied by the District to secure the debt incurred through bond issuance. In addition to the levy of non-ad valorem special assessments for debt service, the District may also impose a non-ad valorem assessment to fund the operations and maintenance of the District and its facilities and services.

Locating in the District by new property owners is completely voluntary. So, ultimately, all owners and users of the affected property choose to accept the non-ad valorem special assessments by various names and user fees as a tradeoff for the benefits and facilities that the District provides.

A Community Development District (“CDD”) provides property owners with the option of having higher levels of facilities and services financed through self-imposed assessments. The District is an alternative means to manage necessary development services with related financing powers. District management, including transactional costs associated with infrastructure maintenance, monitoring and reporting, is no more expensive, and often less expensive, than the alternatives of a municipal service taxing unit (MSTU), a property association, County or City provision, or through developer equity and/or bank loans.

In considering these transactional costs, it shall be noted that owners of the lands to be included within the District will receive three major classes of benefits. First, landowners in the District will receive a higher long-term sustained level of public services and amenities sooner than would otherwise be the case.

Second, a CDD is a mechanism for assuring that the community services and amenities will be completed concurrently with development of lands within the District. This satisfies the revised growth management legislation, and it assures that growth pays for itself without undue burden on other taxpayers. Establishment of the District will ensure that these landowners pay for the provision of facilities, services and improvements to these lands.

Third, a CDD is a form of governance that allows District landowners, through landowner voting, and eventually qualified electors, through general elections, to determine the type, quality and expense of District services they receive.

The cost impact on the ultimate landowners in the District is not the total cost for the District to provide infrastructure services and facilities. Instead, it is the incremental costs above what the landowners would have paid to install infrastructure via an alternative management mechanism. Given the low cost of capital for a CDD, the cost impact to landowners is negligible. This incremental cost of the high-quality infrastructure provided by the District is likely to be fairly low.

## **6.0 An analysis of the impact on small businesses as defined by Section 288.703, F.S., and an analysis of the impact on small counties and small cities as defined by Section 120.52, F.S.**

Approval of the 7 Islands CDD will have positive impacts on small business as defined in Chapter 288.703 (1), F. S. These positive impacts will result because the additional population in the District

will require goods and services from small businesses. These services can be provided by the small businesses that currently serve the general area. Additional opportunities will also be created for new businesses to be formed or relocate to the area. No negative impacts have been identified for small businesses as defined.

The City has an estimated population in 2020 that is greater than 75,000; therefore the City is not defined as a “*small*” City according to Section 120.52, F.S, and there will accordingly be no impact on a small City because of the formation of the District.

#### **7.0 An evaluation of market impacts likely to result from compliance with the proposed rule.**

There are minimal market impacts as the ordinance establishing the District is not likely to result in market impacts such as changes to or additional customer charges, changes to the market value of goods or services produced, provided or sold, changes to costs resulting from the purchase of substitute or alternative goods or services or incur additional time be spent by State of Florida or the City of Cape Coral governmental staff to understand and comply with the proposed ordinance, including, but not limited to, time to be spent completing requiring education, training, or testing, as the proposed District will be one of many already existing CDDs in Florida and all development within the CDD is subject to existing City requirements.

#### **8.0 Any additional useful information.**

The analysis provided above is based on a straightforward application of economic theory, especially as it relates to tracking the incidence of regulatory costs and benefits. Inputs were received from the Petitioner’s Engineer and other professionals associated with the Petitioner.
