

CITY OF NASHUA NOTICE

Nashua is initiating a comprehensive update of its land use regulations, following the groundwork laid by the Imagine Nashua master planning effort. The master plan established a vision for Nashua as a welcoming, diverse, and forward-thinking city, offering various opportunities for economic, housing, educational, and recreational growth. In collaboration with our code consultant Principal Group, the update will provide clear and concise regulations, manifesting the master plan's vision. **Community engagement events begin on Monday, March 11th** to kick off the project's "Vision Week". The community can view a detailed schedule of events at **www.nashuarecode.com** and direct specific questions to re-code@nashuanh.gov.
